Residence contracts normally apply for the full academic year, i.e. starting on 1st of September and terminating on 31st of August of the following year. Residence contracts for the winter semester terminate at the end of February. The summer semester always begins on 1st of March. Students who start their first degree have the right to conclude the contract of use for a period of 24 months.

Residents must vacate their apartments two weeks prior to termination of the contract in August and one to two weeks prior to termination of the contract in February. The unconsumed amount of the residence fee (for the one or two weeks of non-residence) will be added to your deposit and included in the final settlement.

If admitted to ISH, I hereby agree to transfer the amount of the deposit, the rent for the first month, and the first-time admission fee of € 35,- and to send the contract to Internationales Studentenhaus, gemeinnützige GmbH. On payment of the deposit and signing of the contract, the residence contract becomes binding on both parties.

Should all apartments of the requested type or category already have been allocated, ISH will offer an alternative where possible. When you receive the documents for admission with notification of the allocation made, you may of course decline the suggested alternative.

Mixed-gender occupation of one and the same unit **is permitted**. Please be aware though, that you cannot change apartments during the year.

! Please note that all the information, documents and the residence contract are being sent to you via Email. So please **check your Email** account on a daily basis.
